Why Epos?

There are many benefits in adopting an **EnterprisePOS** system for your business needs over other systems. Here are a few.

REDUCED RISK

• **Customize** the system to fit specifically how **YOU** do business!

• **Simple** user-interface to learn (Windows Explorer style screens)!

• Always utilizing the **latest technology** – it will never be obsolete!

• High data **encryption** and **security controls**!

• **Huge clientele**! Systems are in place in many different industries!

MANAGED INVESTMENT

• **Scale the system** up or down to fit your needs – large or small!

• **Better management** of your business pays for itself quickly!

• **Specific packages** are available for your type of business!
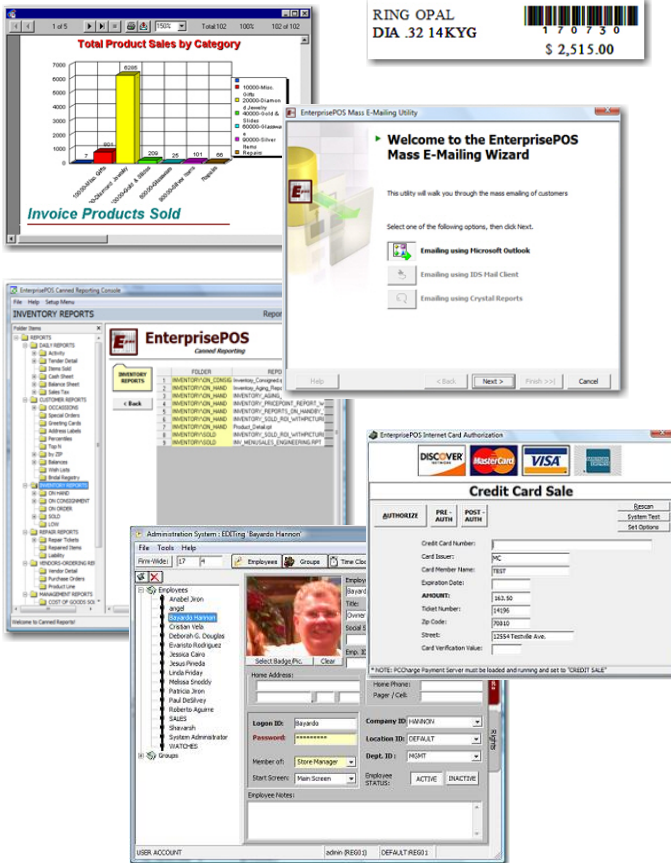

COST SAVINGS

• Get **MORE** features for your **MONEY**!

• System is **priced FAR LESS** than other comparable systems!

FUNCTIONALITY – DO MORE WITH EPOS

• Track customer detail, sales, vendors, inventory, etc.

• Setup product catalogs and create email marketing campaigns

• Track purchase orders and interface to external vendor systems

• Create work-orders / repairs that automatically enter a back-end technician work queue where service work is tracked

• Track employee time and payroll with the integrated TIME CLOCK

• Use any of the hundreds of reports or design your own
